In presenting you with this, our first **ILLUSTRATED CATALOGUE and PRICE LIST**, we do so with the hope that it will prove of mutual benefit and advantage, affording you, as it does, a safe and convenient guide for ordering goods in our line and enabling us to fill orders with greater promptness and accuracy; while we trust it will serve as an inducement for you to increase your trade with us.

You will, we think, appreciate the high style of art in which the engravings are executed; they are as nearly exact representations of the goods as it is possible to produce on paper, being superior even to photographs in that respect.

The trade generally is familiar with the style and quality of our goods; we will simply say here, that we manufacture only **FIRST-CLASS GOODS**, and at as low prices as it is possible for any other establishment to furnish goods of the same quality.

We would respectfully request our customers to preserve these Catalogues unmutilated, as their production is attended with considerable expense.

With thanks for past favors, and hoping we may be favored with your future orders which shall have our prompt and careful attention, we are,

Yours very respectfully
